SAFWARE CONTRACTS

Safeware provides access to the best products and service to keep people safe in any work place. From construction and utilities to fire and law enforcement, we offer the best solutions to keep you out of harm's way. Safeware holds several contracts to assist you in securing your solutions when you need them. Easy. Fast. On-time.

OMNIA® | Public Sector

Public Safety & Emergency Preparedness Contract

Lead Agency: Fairfax County

Contract Number: 4400008468

This Fairfax County Contract, available through OMNIA Partners, has been competitively solicited and awarded using the Lead Public Agency model. By accessing this contract via an intergovernmental cooperative agreement, public agencies are able to satisfy the solicitation process and purchase their supplies and services at a reduced cost. Agencies that use this contract save time and money in the purchasing process and typically experience an average of 5% savings over traditional methods in the procurement process alone.

Sourcewell

Cooperative Purchasing Contract

Public Safety Contract Number: 032620-SAF

Firefighting Personal Protective Equipment, Apparel, and Accessories, with Related Cleaning and Maintenance Equipment

register now @ sourcewell-mn.gov/register

1

Register

Schools, universities, nonprofits, and government agencies can quickly and easily register to participate for free. There are no fees to use our contracts, no commitment, and no obligation to purchase.

2

Find a Contract

Sourcewell has hundreds of awarded supplier contracts in a wide variety of industries including Public Safety. You can quickly search contracts by product type, or browse contracts by state and county.

3

Contact Safeware

Utilize the Public Safety contract to quickly obtain a quote, and finalize the sale with Safeware using contract number 032620-SAF and your agency's Sourcewell account number. It's that easy!

HEAD PROTECTION

UNITED SHIELD ACH/MICH MIL BALLISTIC HELMET

The new US Military design featuring a low profile compact helmet with minimum target area and weight.

- Weight: 2.6-2.8 lbs.
- Features an advanced 7 comfort pad system
- Offers improved head stability with a 4-point adjustable harness, suede covered chin cup and nape strap
- Ballistic performance to NIJ 0106.01 and HP White 0401.01
- Shock absorption - US Army ACH Spec for impact
- Hemi-Anvil, 10ft/sec with less than 150 G's force transmitted to head
- Fragmentation performance to US ACH Mil-Spec

UNITED SHIELD PASGT BALLISTIC HELMET

The PASGT helmet is manufactured with state of the art advanced high strength multi-layered Aramid composites laminated under heat and pressure.

- Excellent bullet resistance
- Minimal deformation at a weight of approximately 3 lbs.
- Offers improved head stability with a 4-point adjustable harness, suede covered chin cup and nape strap
- Ballistic performance to NIJ 0106.01 and HP White 0401.01B
- Wider cut around ears and collar cut to reduce interference from other equipment

UNITED SHIELD SPEC OPS DELTA GEN II

Made from advanced Aramid composites and provides lightweight robust protection from ballistic and fragmentation projectiles as well as other low energy threats.

- Weight: 2.7 lbs.
- NEW carbon fiber Universal NVG mount with guaranteed no-rattle fit
- NEW USI Rapid Adjustment Dial BOA® retention system with 2-way adjustments
- NEW 4D Combat Pad ultra comfort system with phase change technology
- Industry leading ballistic proprietary thermoplastic aramid composite shell
- Removable suede split chin strap to allow for laundry, replacement or use of gas mask extender
- 4-point adjustment harness, picatinny rails, helmet VELCRO® brand fastener kit and bungees
- NIJ 0106.01 Level IIIA, HP White 0401.01B Level IIIA and exceeds US MIL-SPEC for ACH helmet for 2, 4, 16, 64, 17 grain fragments

TEAM WENDY EXFIL® BALLISTIC HELMET

With a ballistic rating of NIJ Level III-A, it exceeds current ACH Blunt Impact Protection requirements and offers optimal comfort, fit and stability.

- Hybrid composite shell for increased strength and a unique geometry for ideal fit
- Boltless CAM FIT™ retention utilizes a Boa® Fit System with Cam Lock sliders for one-handed adjustment. Left Eye Dominant (LED) option also available.
- Zorbium® foam liner provides customizable comfort while protecting against blunt impact, and allows for an overhead communications headband
- Lanyard compatible Wilcox® shroud secures any standard NVG mount
- Complete system weight of 2.6 lbs. (size 1) and 2.75 lbs. (size 2) includes the helmet shell, accessory rails, impact liner and retention system

REVISION MILITARY BATLSKIN VIPER™ P4 HELMET

The Viper P4 head protection system is the most advanced combat helmet, weighing up to 24% lighter than the legacy U.S. Army ACH system - pushing the boundaries of obtainable weight reduction while maintaining superior ballistic and fragmentation protection.

- Stops NIJ IIIA level threats
- Available with Revision's MSS Liner System for enhanced comfort and stability
- Every helmet meets U.S. Army's strict performance, protection and quality standards
- Foundation for all Batlskin modular protection system components and accessories
- Available in 3 cuts (full, mid and high) and 4 sizes (S-XL)

LRAD® 100X

Self-contained, hand-held portable voice broadcast system for on-scene and tactical communications.

- Powerful, intelligible communication up to 600 meters
- 20-30 decibels louder than bullhorns and vehicle P.A. systems
- Focused, directional sound pattern for targeted communication
- Create instant acoustic standoff perimeter
- 8-hour rechargeable battery
- Simple operator interface
- Water resistant

LRAD® 500X-RE

Compact long range communication system designed for mounting on tripods, larger vehicles and boats.

- Fixed or portable mounting
- Powerful, intelligible communication up to 2,000 meters
- Voice boost for extended coverage
- Creates instant acoustic standoff perimeter
- Rugged, military tested construction
- All-weather use
- Low power requirements: 60W w/voice, 260W w/ tone
- Simple operator interface

LRAD® 500X-MMT

Fully self-contained helicopter mounted, air-to-ground communication system featuring rugged mount with full pan-and-tilt range of motion.

- Powerful, intelligible communication up to 2,000 meters
- Quickly installed and removed from helicopter
- Self-powered for 6+ hours of continuous operation when fully charged
- Supplemental type certificates not required
- Simple operator interface

LRAD® 100X MAG-HS KIT

Rapidly deployable, self-contained voice broadcast system with high-strength magnet mount and wireless operation capability.

- Wireless control up to 300 meters and a high strength, easy on/off magnetic mount system
- Up to 6X louder than systems of comparable size and weight
- Focused, directional sound pattern for targeted communication with unparalleled clarity
- Create instant acoustic standoff perimeter
- High-strength neodymium mount system
- Wireless system batteries operates up to 8 hours
- 8-hour rechargeable battery
- Simple operator interface
- Water resistant

LRAD® 360XT SOLAR W/ SATELLITE CONTROL

Mobile, self-contained mass notification system on wheels. Broadcasts highly intelligible voice messages and warning sirens with uniform 360° area coverage.

- Integrated with a fully self-contained, ruggedized trailer and features lockable electronics and equipment enclosures containing the amplifier modules and battery pneumatic systems
- Battery bank can be charged using the built-in AC powered battery charger or optional solar panel
- Standard configuration of a 3 stack 360X emitter provides a 1,000 meters radius of clear communication coverage

LRAD® 360XL-MID MOBILE KIT

Rapidly deployable, fully self-contained mass notification and incident management communication system.

- 360° uniform sound coverage
- Powerful, highly intelligible voice communications over 2.0 km²
- Complete mass notification kit (emitter head, power amplifier, control module, push-to-talk microphone)
- Lightweight and compact form factor
- Low power consumption for hours of continuous operation
- Industry-leading voice clarity and intelligibility

AVON FM54™ AIR PURIFYING RESPIRATOR

Provides maximum level of protection to the face, eyes, and respiratory tract from CBRN, riot agents, TICs, and toxic industrial materials while maintaining extreme user flexibility as mission profiles change.

- Functions in both negative and positive pressure modes (APR, SCBA, CCBA, and PAPR)
- Panoramic single lens visor
- Electronic communication port for integrated voice projection and radio communication
- 4 sizes to accommodate all operators
- Low profile brow for superior helmet compatibility
- Interchangeable silicone nose cups for custom fit
- Multiple modes
- Optional VPU provides ability to easily communicate while wearing mask

AVON
PROTECTION

AVON C50™ MASK ASSEMBLY

Based on the U.S. M50/JSGPM (Joint Services General Purpose Mask) and sharing key technologies, provides maximum operational flexibility to counter multiple threat scenarios, including CBRN agents, TICs and TIMs.

- Offers high protection, outstanding field of vision and superior comfort
- The innovative design features optimize the user's time in the operational area

FOR A NON-CBRN
OPTION, ASK ABOUT
AVON'S PC50

AVON ST53™ SCBA

Combines Avon's FM53 mask technology with an advanced modular breathing apparatus to provide positive pressure SCBA and/or PAPR capability for specialist operations.

- Utilizes black anodised lightweight components
- Enables a fast response to changing operational conditions in one complete modular system
- A switch between negative (filter) and positive (SCBA) pressure is achieved at the flick of an easy to locate lever on the front of the mask
- Can attach a short or long duration compressed air cylinder and enter a location on filter mode, assess the situation and change to SCBA mode if the need arises

MSA
The Safety Company

MSA G1 SCBA

Designed solely with your safety and comfort in mind. The G1 SCBA offers integrated and enhanced solutions to exceed your needs today as well as years into the future.

- Facepiece is lightweight and compact (no electronics needed)
- Control module provides dual color LCD and analog displays
- Improved visibility through buddy lights and reflective material
- Heads up display (HUD) shows remaining cylinder pressure in 4 increments via colored LEDs
- Electronic communications are integrated into every unit
- G1 SCBA ergonomics
- Central power system for all electronics
- Available in easily-upgradeable threaded or quick-connect cylinder attachment
- Integrated technology for future expansion
- Customizable

MSA MILLENNIUM CBRN GAS MASK

A Hycar version of the reliable military-style gas mask (MCU-2/P Mask, used by the Air Force in Desert Storm). The mask combines high performance, customized fit, comfort, cost efficiency and is ideal for law enforcement and emergency response personnel.

- Flexible, one piece polyurethane lens with wide field of vision, bonded to a durable super-soft Hycar rubber facepiece
- NIOSH approved for protection against CN and CS tear gas
- Effective against, but does not have approval for OC tear gas
- Effective against biological agents and chemical warfare agents
- Dual-canister mount to allow weapon firing from either shoulder
- Canister provides up to 8 hours service time against CN, CS and OC agents
- Drinking tube to allow fluid ingestion in contaminated atmospheres
- Standard equipment includes a speaking diaphragm for clear, short-range communications
- Features a nose cup to reduce lens fogging in low temperatures or high humidity conditions

MSA MILLENNIUM CBRN CANISTER

3M™ SCOTT SAFETY AV-3000 W/ SURESEAL FACEPIECE

Combines superior fit with greater comfort and versatility. Holds NIOSH approvals across a wide variety of applications, including CBRN.

- Top down convertibility-single facepiece for APR, PAPR, supplied air and SCBA applications, including CBRN
- Reverse Reflex face seal for improved comfort and fit
- Deep, low profile seal for easier interface with PPE
- Dual large mechanical voicemitters as well as extensive electronic options for improved communications for every workplace
- Available with Kevlar, Poly or Rubber head harness

3M™ SCOTT SAFETY 40MM CARTRIDGES AND CANISTERS

HONEYWELL OPTI-FIT™ TACTICAL GAS MASK

- Superior field of vision offers an unobstructed view
- Full facepiece constructed of soft silicone for excellent comfort, fit and durability
- Choice of headgear - 5-pt. strap or nylon mesh headnet
- Three-position canister mounting adaptable for various applications
- Anti-scratch coated polycarbonate lens
- Lens meets ANSI Z87.1 standard for impact and penetration resistance
- DIN-threaded 40 mm connectors
- Low breathing resistance
- NIOSH approved with the Model 1688 Canister to provide protection against chloroacetophenone (CN), chlorobenzylidene malononitrile (CS) and includes a P100 filter for use against particulates such as pepper spray
- NIOSH approval number TC-14G 0264

3M™ SCOTT SAFETY AIR-PAK™ X3 PRO

The Air-Pak™ X3 Pro SCBA is built on a proven foundation of redundant safety features to help ensure the security and comfort of today's firefighter.

- Easy to remove harness
- New harness materials offer greater resistance to chemical and water absorption to help minimize contamination
- Reflective webbing
- Natural articulation promotes greater range of motion to the firefighter, while transferring weight to the hips for a more balanced load
- Superior breathability
- Electronic PAR (ePAR) provides wireless, bi-directional communication between the firefighter and incident command to improve fireground accountability and communications
- New buckle design provides firm hold
- Integrated drag rescue loop
- System integrity alarm provides visual and audible alert
- High flow alarm provides visual and audible alert
- No flow alarm provides visual and audible alert
- "Buddy" lights provide a 360° view of the firefighter's air pressure and PASS status

Honeywell

HONEYWELL NORTH SAF-T-FIT® P100 PARTICULATE RESPIRATOR

NIOSH-approved P100 protection provides 99.97% particulate efficiency against oil and non-oil based particulates.

- Meets OSHA and EPA filtering facepiece requirements for lead abatement
- Full face seal for secure and comfort fit
- Durable and adjustable straps
- Exhalation valve expels warm air
- Molded cup design
- Incorporates humidity-resistant filter media
- Low breathing resistance
- Lightweight design
- Nose clip is color-coded for visible size recognition
- Latex free
- Multiple size options for wide range and improved fit

BODY ARMOR

AIRIUS AND ARAURA
LEVEL IIIA ALSO
AVAILABLE

UNITED SHIELD AIRIUS LEVEL II VEST

The latest innovation in WEARABLE body armor.

- NIJ 0101.06 certified Level II armor
- Provides the areal density weight and thinness of leading polyethylene vests with the flexibility and softness of leading aramid vests
- Comes standard with SPA carrier with 'Dry Run' moisture management system to wick away moisture from the body
- The SPA features a 12-point adjustment system, hidden plate pockets, full side coverage, recessed closure system and optional tails
- Weight: 0.63 psf
- Thickness: .22"
- Performance: 9mm v50 - 1705 fps/.357 v50 - 1685 fps

UNITED SHIELD ARAURA LEVEL II VEST

- Weight: 0.99 psf
- Thickness: .25"
- Performance: 9mm v50 - 1729 fps/.357 v50 - 1663 fps

BALLISTICS

UNITED SHIELD LITE TACTICAL VEST

Blends the functionality of a tactical carrier with a lightweight design that's geared for high performance. Features an abrasion resistant outer fabric that provides exceptional durability for extreme situations.

- Sturdy 500D Cordura® nylon outershell exterior construction
- Top loading plate pockets
- Additional pocket for one size smaller rifle plate
- MOLLE compatible webbing on the front, back and sides
- Adjustable shoulder straps
- Adjustable cummerbund with hook/loop closure underneath the front flap
- Bungee lace cummerbund adjustment
- Flat Kangaroo magazine pockets on front flap
- "Man-Down" drag strap in the rear
- Internal straps for adjustable groin protector
- Accepts insertion of United Shield concealable panels

UNITED SHIELD GARRISON VEST

Providing high performance ballistic protection, integrated in a fully functional and versatile design to meet the strategic needs of your specific mission.

- Sturdy 500D Cordura® nylon outershell exterior construction
- Top loading plate pockets
- Additional pocket for one size smaller rifle plate
- MOLLE compatibility on front, back and sides
- Adjustable shoulder straps
- Adjustable cummerbund with hook/loop closure underneath the front flap
- Bungee lace cummerbund adjustment
- Flat Kangaroo magazine pockets on front flap
- "Man-Down" drag strap in the rear
- Internal straps for adjustable groin protector

UNITED SHIELD MOLLE CROSSOVER CARRIER

Ideal for law enforcement officers who have occasional equipment-carrying assignments. Can be easily converted into a ballistic protective vest by allowing insertion of United Shield ballistic panels.

- Durable 500D Cordura® nylon exterior fabric
- Spacer mesh interior fabric improves breathability
- Top loading internal front and back plate pockets
- MOLLE webbing compatibility in the front of the carrier
- Adjustable front to back side hook/loop closure
- Internal 4" adjustable elastic cummerbund sewn in the back

UNITED SHIELD DELTA +6H BALLISTIC PLATE

Level III+ stand alone single curve ballistic plate. Ergonomically designed using proven technology affording the wearers excellent stand alone protection against a range of high velocity threats.

- NIJ 0101.06 Certified
- 3.1 lbs. | 10" x 12"

DELTA LITE 6H
ALSO AVAILABLE

UNITED SHIELD SIGMA 6H BALLISTIC PLATE

Level III+ stand alone multi-curve ballistic plate. Ergonomically designed using proven technology affording the wearers excellent stand alone protection against a range of high velocity threats.

- NIJ 0101.06 Certified
- 5.8 lbs. | 10" x 12"

SIGMA LITE 6H
ALSO AVAILABLE

UNITED SHIELD ZETA 6H BALLISTIC PLATE

Level III+ stand alone single curve ballistic plate. Ergonomically designed using proven technology affording the wearers excellent stand alone protection against a range of high velocity threats.

- NIJ 0101.06 Certified
- 7.6 lbs. | 10" x 12"

ZETA LITE 6H
ALSO AVAILABLE

UNITED SHIELD UNIFORM SHIRT CARRIER

Specially designed to be worn over the dress shirt.

- Uniform shirt design
- Durable 600D Cordura® nylon exterior fabric
- Poly/cotton interior fabric
- Hook/loop shoulder adjustment
- Front adjustable side hook/loop closure
- Two front lower pockets with zipper closure
- Internal tablet pocket with zipper closure
- Front chest pockets with hook/loop closure
- Internal cell phone pocket
- Pen openings
- Shoulder mic tabs
- Bottom internal ballistic opening

ACTIVE SHOOTER

UNITED SHIELD LEVEL IV ACTIVE SHOOTER KIT

Includes:

- (1) PST SC650 helmet
- (2) Zeta 6h NIJ06 certified Stand Alone Ballistic Plates and (1) carrier option
- The Level IV plates are ergonomically designed to offer the user NIJ 0101.06 certified stand alone protection
- Bag included

**BALACLAVA**

- Fire retardant
- Designed to give a specified level of protection against accidental contact with flame and against certain forms of heat transfer
- One Size

DARK NAVY**EA****ARM 21305-15 (SZ)****ARMADILLO MERINO EPIC SOCK**

- Over the calf sock
- Extra long so it can be folded down over the top of the boot
- Elastic arch support system
- Elastic above the ankle for a better fit
- Lightweight high-stretch padding up the shin and across the top of the foot
- Reinforced toe and heel
- Smooth toe seam
- 62% wool, 21% polyamide, 9% polypropylene, 8% elastic
- SM-XL

DARK NAVY**PR****ARM 11511-15-1 (SZ)****ARMADILLO MERINO COUGAR SHORT SLEEVE CREW SHIRT**

- Crew neck with generous back length
- Seamless underarm for no chaffing and seamless shoulders designed for load carrying

CHEST AND BACK PROTECTOR

- Lightweight, ergonomically designed chest and back protection
- Chest protection: From collar bones to waistline
- Back protection: From shoulder blades to waistline
- Outer shell: Super high impact ABS moulded shell. Ridged design gives excellent protection against impact while keeping weight to a minimum.
- Inner foam: Low-density impact absorbing polyethylene moulded foam reduces weight and allows circulation of air around the product
- Fastenings: 4 Velcro adjustable Nylon straps riveted to the body of the guard. One at each shoulder, two at the waist. Ensuring security and comfort.
- Guards should be worn beneath a compatible flame retardant coverall. The outer moulding offers limited flame spread in accordance with UL-94 HB.
- Certification: Meets the requirements of UK Home Office Centre for Applied Science and Technology Standard 20/07
- Sizes SM-LG

H&H MEDICAL SWAT-T TOURNIQUET (ORANGE)

Allows a more rapid means to control extremity bleeding and allows application higher into the groin and axilla than other tourniquets.

- Ease of application
- Made with a bright safety orange color for easy identification and application
- Instructions for use are printed on the tourniquet along with the trademark pressure application measure showing just how much pressure to apply to reach occlusion

H&H MEDICAL BLEEDING CONTROL BASIC KIT

Provides first responders with a compact and durable individual hemorrhage control kit to treat bleeding from penetrating and other traumatic injuries.

Kit includes:

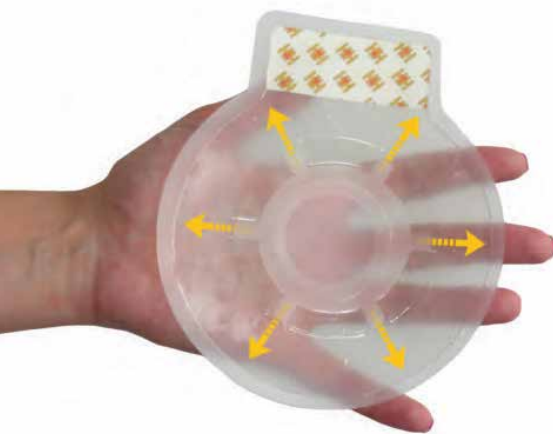

- SWAT-T tourniquet
- H&H Mini Compression Bandage
- H&H PriMed Compressed Gauze roll
- Nitrile gloves

NORTH AMERICAN RESCUE COMBAT APPLICATION TOURNIQUET (C-A-T)

The C-A-T® utilizes a durable windlass system with a patented free-moving internal band providing true circumferential pressure to the extremity.

- New single routing buckle for faster application, decreased blood loss, effective slack removal, fewer windlass turns, and simplified training with single protocol application standards
- Includes reinforced windlass, stabilization plate, windlass clip and writeable windlass security strap
- Featuring NAR's signature Red Tip Technology® elliptical tab providing added visual clues during application

H&H MEDICAL H*VENT LAMINAR VENTED CHEST DRESSING

Designed to work to relieve pressure from an open chest wound due to air in the chest or bodily fluid.

- A unique multi-directional vented dressing (allows the fluids to "drain towards gravity")
- Helps prevent occlusion
- The unique dome membrane design creates a complete seal around the wound area
- Large vent openings on the H*VENT allows for visual monitoring of the wound
- Proven in internal testing to retain a seal during inhalation and to maintain a sustainable negative pressure (below ambient pressure) within the pleural space
- Lowest profile of any vented chest seal and easy to fold

NORTH AMERICAN RESCUE RIGID GEN 7 TOURNIQUET CASES W/ SHIRT SHIELD

Designed to provide personnel with the capability of carrying the life-saving C-A-T® Tourniquet on their person by easily mounting it to their duty/patrol/pistol belt, where it is needed most.

- Includes a Shirt Shield complete with mounting hardware to protect your uniform shirt from undue wear caused by the friction from the windlass clip
- Blade-Tech TekLok Belt Attachment fits up to a 2.25" belt
- Injection molded nylon case to stand up to rugged LE/MIL usage

H&H MEDICAL TECC KIT

Designed to hold enough emergency products to respond to a mass casualty situation.

- Contains everything you need to treat the 3 most preventable causes of traumatic death: blood loss, airway occlusion and sucking chest wound
- Meets the basic requirements for Tactical Emergency Casualty Care

NORTH AMERICAN RESCUE M-FAK MINI FIRST AID KIT

Designed to be the most compact, multi-use IFAK for delivering immediate critical care for penetrating, blast or other traumatic injuries.

Kit includes:

- 1 x C-A-T™ (Combat Application Tourniquet®) black
- 1 x 4" Flat ETD™
- 1 x S-rolled gauze (4.5" x 4.1 yd)
- 1 x HyFin® Vent Compact Chest Seal, twin pack
- 1 x pair Bear Claw® nitrile trauma gloves, LG
- Super compact, rugged nylon platform that allows attachment both vertically (MOLLE backing) and horizontally (3" belt loop)
- Clam shell configuration utilizes (2) main sleeves that open on both ends for easy access

NORTH AMERICAN RESCUE PATROL VEHICLE TRAUMA KIT

Designed to provide personnel with an easily accessible, quick to deploy medical kit from your patrol vehicle.

- One side covers all your agency needs to administer basic first aid and community assistance
- Second side offers a first time combination of basic first aid and basic trauma medical items
- Exterior includes MOLLE-style system to accommodate extra equipment as needed

QUIKCLOT® BELT TRAUMA KIT®

A compact, lightweight, wearable holder that fits up to a 2" belt and can be rotated 90° to make room for other gear. Contents can treat up to one injury.

Includes:

- QuikClot Combat gauze® LE
- SWAT-T™ pressure dressing
- Nitrile gloves

QUIKCLOT® BLEEDING CONTROL BAG®

This bag is integral for responding to a range of bleeding situations. Its innovative design allows it to function in a stand-alone capacity or as part of an overall bleeding control program. Contents can treat up to 12 injuries.

Includes:

- QuikClot Combat gauze® LE
- QuikClot® EMS 4x4 dressings
- QuikClot® EMS rolled gauze
- Tourniquets, C-A-T™, SOF™ TT-W
- Dressing, TacMed Control™ Wrap
- Nitrile gloves
- Shears, EMS-style

ADS XR150 X-RAY SOURCE

Provides the ultimate option in portability for high powered X-ray machines.

- Weighs less than 5 lbs.
- Penetrates up to 1/2" of steel
- Small size makes the unit easy to position in hard to reach places or to maneuver on a robot arm
- Performance - high penetrating capability, durable, lightweight packing, long battery life
- Simplicity - only one variable to control exposure
- Safety - extremely short exposure time and low leakage
- Spectrum - wide spectrum penetrates both high and low density material in same radiograph

ADS MITHIX PRO EOD HOOK AND LINE TEAM KITS

Designed for EOD, bomb squad, and special operations procedures.

- High quality components
- Stainless steel hooks
- High-strength marine-grade pulleys
- Low-stretch high grade Kevlar rope and other essential tools made specifically for IED, remote movement and remote handling operations

ADS NEX-RAY®

Offers advanced, portable, lightweight x-ray image capture units designed to obtain accurate, near real-time radiographic imaging.

- Patented technology allows NeX-Ray® to dispense with the use of fragile and heavy glass plates integral to most flat panel imagers
- 2 models available (FPX and MMX)
- Can be operated with Windows XP, 7, or 8 laptops or with Android 4.2 (or later) mobile devices
- NeX-Ray® imagers can be operated in stand-alone, tethered remote, and wireless modes

ADS TITAN

- (1) 12" main barrel
- (2) Smooth bore extensions
- (1) Rifled extension
- (1) Breech cap
- (1) Breech plug
- (1) Thread protector

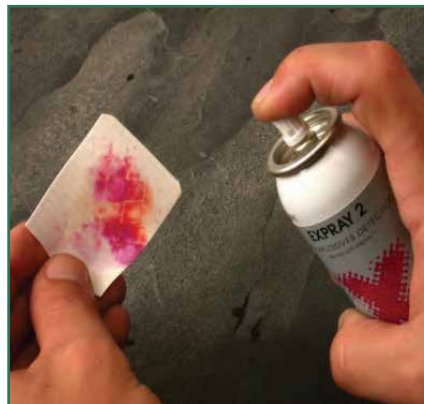

NOW WITH TWO NEW CONFIGURABLE OPTIONS

MISTRAL SECURITY EXPEN

Ampoule-based technology. Designed for military, EOD, and security personnel primarily for easy carrying and for situations that do not require multiple tests.

- Capabilities: Nitro Aromatic, Nitramines, Ammonium Nitrate, Peroxide, Acetic Anhydride, and much more

MISTRAL SECURITY EXPRAY®

A unique explosive aerosol test technology, Expray®, detects both trace and substance levels of explosives as well as homemade explosive (HME) precursors.

- Capabilities: Nitro Aromatic, Nitro Esters, Nitramines, Inorganic Nitrates and much more

MISTRAL SECURITY TOTAL CONTAINMENT VESSELS (ARC)

Provides full protection against blast and fragmentation with repeated detonation capability.

- Safely contain and transport explosive devices

TACTICAL ELECTRONICS
ELITE TACTICAL CAMERAS & EOD SOLUTIONS

TACTICAL ELECTRONICS 1ST LINE EOD TOOL KIT

Designed to provide EOD operators and bomb technicians with a versatile, lightweight kit that builds upon the capabilities of the Immediate Action Pouch without necessary or wasteful redundancy. Ideal for missions where the user has limited cargo or carry space and where the operator must take weight or dimensions into consideration.

- Small lightweight design
- Can be carried in a cargo pocket or stored in a small compartment
- Ideal for dismounted operations

TACTICAL ELECTRONICS WIRE ATTACK SPECIAL PIERCER PROBES (WASPP) KIT

Specifically designed to allow EOD operators to make non-invasive electrical measurements of wires.

- Includes 10 specialized “bed of nails” piercers with volt meter leads, 10 extensions and 1 roll up carry pouch

TACTICAL ELECTRONICS 2ND LINE EOD TOOL KIT

Customized to equip EOD and bomb technicians with the tools necessary to execute render safe procedures. Allows operators to customize the configuration based on each scenario.

- Comes complete with 6 individually populated tool kits: 1st Line, Immediate Action Pouch, RIP Kit, Detonator Diagnostic Kit, Manual Access Kit and Bit Kit
- All kits fit into one pack with extra room for additional supplies

QINETIQ TALON®

TALON robots are powerful, durable, lightweight tracked vehicles that are widely used for EOD, reconnaissance, communications, sensing, security, defense and rescue. They have all-weather, day/night and amphibious capabilities and can navigate virtually any terrain.

- IOP compliant
- Man-portable, instantly ready for operation
- Fast
- Configurable
- Intuitive
- Outstanding situational awareness: standard 4 color cameras, including night vision, thermal and zoom options
- Withstands repeated decontamination

QINETIQ DRAGON RUNNER® 10

The micro unmanned ground vehicle is lightweight, compact, multi-mission remote platform developed for supporting small unit dismounted operations. When fitted with the Light Weight Modular Arm, it has the ability to investigate and recover or neutralize a potential IED. Day and night sensors allow it to serve as the forward eyes of the team while also delivering remote sensors, emplacing counter-IED charges and more.

- Speed: 4 mph
- Max arm lift: 4.4 lbs.
- Front and rear cameras
- On-board microphone
- Controller: compatible with lightweight radio unit and Gen 2.5 hand controller
- Tough enough to be thrown and survive rough handling and adverse weather

ICOR MINI-CALIBER®

The lightweight, modular Mini-CALIBER® is a man transport robot for SWAT and EOD operators. Developed for rapid tactical missions, the robot is simple to operate and quick to deploy, providing fast action for searching rooms, hallways, stairwells and confined spaces.

ICOR
TECHNOLOGY

- Includes a manipulator arm on a rotating turret with a 10X zoom camera on the claw and a max arm lift of 15 lbs.
- CBRNE detectors and sensors can be mounted onto the deck of the robot chassis
- Handheld command control unit is portable and intuitive to use
- Clear images are transmitted to the 5.8" LCD daylight readable screen over a wireless RF system

ALSO AVAILABLE:

Caliber® MK4

MK3 Caliber®

TacticID
By. B&W TEK

B&W TEK TACTICID® - GP

A field-ready handheld spectral analysis instrument designed for non-contact forensic analysis. Utilizes proven Raman spectroscopy, allowing users to get real-time actionable identification of unknown chemicals, narcotics, pharmaceutical drugs, explosives and many other substances while reducing operational uncertainty and response time.

- Customized libraries
- Critical component mixture ID
- Indirect contact analysis
- Wi-Fi connectivity
- Touch screen quick notes
- Color-coded result screens
- TacticOne Response™ (24/7/365 emergency support and spectral analysis)

B&W TEK TACTICID® - N

Handheld Raman analyzer for narcotic and pharmaceutical drug identification.

- Comes standard with a comprehensive library of over 1,000 substances
- Critical component mixture ID
- Indirect contact analysis
- Wi-Fi connectivity
- Touch screen quick notes
- Color-coded results screen
- TacticOne Response™ (24/7/365 emergency support and spectral analysis)

MISTRAL SECURITY PDT

A series of individual, presumptive reagent drug tests that help law enforcement officers, drug enforcement agencies and military CID units quickly and easily identify controlled substances while in the field.

- Options: Heroin, LSD, marijuana, cocaine, bath salts and much more

MISTRAL SECURITY PENTEST

An ampoule-based technology that detects trace amounts of drugs as well as bulk amounts.

- Multi-use
- Will not destroy evidence
- Options include: D4D (general screening), Coca, Cannabis, Herosol, LSD, Meth/X, Opiates, and more

MISTRAL SECURITY FENTANYL PDT

The only fentanyl test that can distinguish fentanyl from other drugs like meth or amphetamines.

NIGHT VISION

ARMASIGHT PVS7 GEN 3P NIGHT VISION GOGGLES

The most widely recognized and dependable U.S. Military night vision goggle system available.

- Compact, rugged design
- Waterproof
- Ergonomic, simple, easy to operate controls
- Built-in infrared illuminator and flood lens
- Equipped with Automatic Brightness Control (ABC)
- Head or helmet mountable for hands-free usage

NIGHTOPS TACTICAL PVS-14

A widely recognized monocular night vision device, battle tested by the U.S. Military.

- L-3 Gen 3 Unfilmed technology
- 40 hour runtime
- 1X magnification

AIMPOINT® MICRO T-2

Electronic red dot sighting technology.

- Advanced optical lenses
- Cutting edge lens coatings
- Lightweight sight for extreme conditions
- Excellent night vision compatibility

Aimpoint®

THERMAL IMAGING

The World's *Sixth Sense*®

FLIR BREACH® PTQ136

Thermal imaging monocular. Spots the heat of suspects and objects in total darkness.

- Weighing only 7.4 oz. (can be concealed in a pocket or mounted to a helmet with its mini-rail feature)
- On-board recording
- Exceptional vision
- 7 palettes for fast detection of suspects or evidence, day or night
- Digital compass and inclinometer

FLIR THERMOSIGHT® PRO SERIES

Thermal imaging weapon sight.

- Exceptional vision
- Built using the new FLIR Boson thermal core
- Bright, high definition FLCOS display for absolute clarity
- Completely digital for better detection, classification and recovery, day or night
- Powerful and compact hardware is protected by a robust body
- On-board video recording, image capture and storage
- Multiple color palettes
- Digital compass and inclinometer

PELICAN 7600 TACTICAL FLASHLIGHT WITH WAND KIT

- Performance surpassing 900 lumens
- 3 LED colors (white, red, and green)
- Provides high, strobe, medium and low modes
- Full time battery level indication
- USB rechargeable lithium ion battery
- Type III hard anodized finish
- Ingress protected IPX8 submersible

PELICAN 7100 TACTICAL FLASHLIGHT

Compact/high performance flashlight.

- 5" long
- 700 lumens of light output
- High, strobe, medium and low modes
- Full time battery level indication
- USB Lithium Ion rechargeable
- Ingress protected IPX8 submersible

STREAMLIGHT PROTAC HL® USB FLASHLIGHT

USB rechargeable, 850 lumen tactical flashlight.

- Choice of three user selectable programs
- Multi-fuel capability
- Durable, anodized aluminum construction
- Water resistant sliding metal sleeve protects USB port
- Multi-function, push-button tail switch for one-handed operation
- LED technology impervious to shock with a 50,000 hour lifetime
- Anti-roll head
- IPX4 water resistant
- 1m impact resistance tested

STREAMLIGHT TLR-1® GUN LIGHT

Rail-mounted tactical weapon light.

- 300 lumens
- 2.5 hours regulated run time
- 12,000 candela peak beam intensity
- Rail grip clamp system securely attaches/detaches quickly and safely with no tools
- Powered by two 3-volt CR123 lithium batteries
- Mounts directly to handguns with Glock-style rails and to all MIL-STD-1913 (Picatinny) rails
- Machined aluminum sealed construction with black anodized finish
- IPX7 rated design, waterproof to 1m for 30 minutes

PELICAN 9490 REMOTE AREA LIGHT

- Up to 6,000 lumens (calculated)
- Up to 24 hours of run time
- Intelligent control (allows for various light output levels)
- Maintenance free LED array with 50,000 hour life expectancy
- Full time battery level indication with low level flashing indicator
- 6' deployable mast with 340° rotation
- Multiple deployment positions
- Quick release/Hot swappable battery design with 12 volt power supply
- Convenient shoulder strap

STREAMLIGHT TLR-7® GUN LIGHT

Small and mighty 500 lumen tactical weapon light.

- Runs 1.5 hours
- 4,300 candela
- Custom optic produces a concentrated beam with optimum peripheral illumination
- Uses one CR123A lithium battery
- Safe off feature prevents accidental activation
- Rail grip clamp system securely attaches/detaches quickly and safely with no tools
- Durable, anodized machined aluminum construction
- IPX7 waterproof to 1m for 30 minutes

SUREFIRE X300U-A

1,000 lumens LED handgun light.

- Custom TIR lens creates smooth, far-reaching light with a larger center spot beam
- Integral ambidextrous momentary-and-constant-on switching
- Attaches securely to both universal and picatinny accessory rails
- High-strength aerospace aluminum body, mil-spec hard anodized for extreme durability

SUREFIRE M600DF-BK

1,500 lumen dual fuel rechargeable LED scout light.

- Virtually indestructible ultra-high-output LED generates 1,200 lumens of blinding light with SF123A batteries and 1,500 lumens with included SF18650A rechargeable lithium ion battery charger kit
- TIR lens shapes versatile beam with enough reach and surround light for close-to longer-range operations
- Mil-Spec hard anodized aluminum body, tempered window and O-ring seals make light rugged, durable, and combat ready
- Activation via Z68 momentary/constant-on push button switching with protective shroud

CAMERO XAVER™ 100

Handheld, tactical through-wall detection system. Provides instant critical situational awareness and target acquisition data.

- Potential uses include: Tactical entry/assault, hostage recovery, search and rescue, breaching and force protection
- Reliable detection of moving and static people behind most common wall materials
- 1d imaging information
- Simple user interface and operation requiring no advanced training

CAMERO XAVER™ 400

Compact, tactical through-wall imaging system. Allows for quick location of people hidden by walls and barriers, enabling tactical teams to step into the known and obtain mission-critical information.

- Compact, light and easy to operate
- Ready to go at the push of a button
- Simple user interface with tracking capabilities for intuitive interpretation
- Simultaneous detection of static and moving objects
- Provides information about room dimensions and major infrastructure elements

CMC RESCUE PERSONAL RAPPEL KIT

Lightweight, durable and low profile. Provides everything needed for rappel access or escape for one tactical officer.

Kit includes:

- Black storage bag
- Stealth rope bag
- 8 Link
- Tactical rappel harness
- Black variable anchor strap
- Large edge guard
- Kong Trapezium Quick-Link
- CMC Lifeline - 75' of black 3/8"
- Prusik cord - 5' of blue 7 mm
- Tubular webbing - 20' of black
- (5) black ProTech™ Screw-Lock carabiners

CMC RESCUE TACTICAL TEAM RAPPEL KIT

Provides rope, harnesses, and hardware for two tactical officers moving in vertical environments, where keeping a low profile is a must.

Kit includes:

- Black storage bag
- #2 black rope bag
- Heavy Rescue Organizer™
- (2) 8 Link
- Black variable anchor strap
- (2) tactical rappel harnesses
- Kong Trapezium Quick-Link
- CMC Lifeline - 150' of black 7/16"
- Tubular webbing - 40' (2 x 12') of black
- Large edge guard
- Prusik cord - 10' (2 x 5') of blue 7 mm
- (7) black ProTech™ Screw-Lock carabiners

TACTICAL ELECTRONICS CORE POLE CAMERA

Extend your vision and tactical inspections.

- High-Definition 1280x720p monochrome video
- Longwave infrared (LWIR) thermal imager
- 4 High-intensity white and LED illumination
- Telescopic pole with locking sections
- Lightweight high density graphite pole
- Omni-directional microphone
- Attaches to POLE Grip, or CORE Grip
- Wireless video transmission - 5 GHz
- AES encryption
- WPA2-PSK authentication
- Graphical LCD for status information
- Hardwire video option
- Backlit push buttons
- MicroSD card video recording (32GB)

TACTICAL ELECTRONICS CORE K-9 CAMERA

Transmits real-time HD video back to the handler.

- High-Definition 1280x720p color video
- Longwave infrared (LWIR) thermal imager
- Adjustable high-intensity IR LED illumination
- Push-to-talk two-way audio
- Wireless video transmission - 2.4 GHz
- AES encryption
- Graphical LCD for status information
- Backlit push buttons
- MicroSD card video recording (32GB)

5.11 BREACHING EQUIPMENT

The Heavy Breaching Kit includes four 5.11 breaching tools designed to defeat any portal quickly and effectively, along with a steel-reinforced, backpack-style Heavy Kit Bag that keeps your breaching tools organized and ready to roll.

- Size: 37" high
- Includes: MultiBreacher, MultiPry, MiniRam, and EdgeBender, Heavy Kit Bag
- Minimizes breach team exposure time
- Durable steel-framed carry pack
- Padded yoke straps
- 400 lb. quick-release buckles
- Removable hood with hook and loop brand closure

TACTICAL ELECTRONICS CORE UNDER DOOR CAMERA

Gain covert visual inspection into rooms behind closed doors.

- 0.26" insertion panel thickness
- Adjustable high-intensity IR LED illumination
- Attaches to POLE Grip or CORE Grip
- Lightweight high density graphite POLE Grip
- Color eyepiece - AMOLED display (CORE Grip)
- Wireless video transmission - 5 GHz
- AES encryption
- WPA2-PSK authentication
- Graphical LCD for status information
- Hardwire video option
- Backlit push buttons
- MicroSD card video recording (32GB)

TACTICAL ELECTRONICS CORE MONITOR

Presents high-definition video from all CORE cameras over an AES encrypted 5 GHz wireless channel.

- Receives high-definition 1280x720p color video on a 5.0" IPS LCD
- Secure pairing with multiple CORE cameras
- Capacitive touchscreen for setup/configuration
- 1mm Corning Gorilla Glass screen
- Remote camera control for view selection and illumination/dimming
- WPA2-PSK authentication
- Hardwire video option
- Backlit push buttons

5.11 

BLACKTHORNE SERVICES GROUP

Provides expertise in CBRNe and related matters. BSG can also branch out to other areas of expertise through their strategic alliances to provide a single point for coordinated consultation on an even larger subject matter.

Training programs include:

- PPE for first responders
- First 100 minutes of RDD, Biological, Chemicals and Explosives response
- Hazardous materials/WMD training
- Illicit and drug lab recognition
- Hazmat rapid intervention teams/fast teams
- Much more!

K9

CASTLE'S K-9 TEAM TRAINING

- Four, six and ten week programs are designed to prepare the officer and canine for everyday life on the street
- Classroom training and rigorous field training

CASTLE'S K-9 DOGS

All dogs are pre-trained and pre-tested before acceptance into the dog handler bonding process

VOHNE LICHE KENNELS

- Selection tested canines
- Narcotic or Explosive trained
- Single or dual purpose

KUSTOM SIGNALS VANTAGE BODY CAMERA

- Flexible data storage solutions (use our cloud or use yours, it is up to you!)
- 30 years of video for law enforcement
- One piece-no cable
- Glove friendly
- Configurable (use only the features you want)
- Rugged design
- IP64 compliant
- 480SD-1080HD capable (and all in between)
- 32GB internal storage
- 120° field of view
- Bookmark button (to mark important events on tape)
- Magnetic mount
- Audio mute

SPEED DETECTION

KUSTOM SIGNALS SMART 650

Speed monitoring awareness radar trailer.

- Kustom Directional RADAR
- 12' high intensity amber LED display
- Flashing overspeed violator alert
- Optional overspeed alerts including 'SLOW', red/blue lightbar, and white LED strobe
- Optional traffic statistics
- 5 year warranty

KUSTOM SIGNALS SMART 850

Speed monitoring awareness radar trailer.

- Kustom Directional RADAR
- 18' high intensity amber LED display
- Flashing overspeed violator alert
- Optional overspeed alerts including "SLOW DOWN", red/blue lightbar, and white LED strobe
- Optional traffic statistics
- Optional solar
- 5 year warranty

KUSTOM SIGNALS VARIABLE MESSAGE SIGN WITH HOMELAND TRAILER

Designed for static and dynamic messages, VMS trailers can be quickly and easily put into place.

- Kustom Directional RADAR
- Amber LED lights provide outstanding visibility
- Hydraulic sign lift
- 4x 2-ton screw leveling jacks
- Removable tongue and 2" ball hitch
- 80W solar panel
- Up to 39 day run time with 6 batteries
- Wi-Fi modem for local wireless programming

3M AUTOMATIC LICENSE PLATE RECOGNITION (ALPR)

ALPR is widely recognized as an effective tool to combat criminal activity, enhance productivity and improve officer safety. Fixed and mobile ALPR systems can help identify certain people and situations:

- Stolen vehicles
- Wanted felons
- Amber alerts
- Sexual predators
- DUI surveillance
- Drug enforcement
- Campus security

CINTEL ALPR CAMERA

Manufacturer of a full suite of rapidly deployable fixed and mobile ALPR cameras and surveillance products.

GOVERNMENT
SECURITY SOLUTIONS

VEHICLES

LENCO BEARCAT®

Can be used as a SWAT or Military Counter Attack and Rescue vehicle and is often used in hostile Urban Environments.

LDV MOBILE COMMAND CENTERS

Offers used and new mobile command centers, SWAT trucks and many other specialty vehicle solutions.

GAS DETECTION

MSA ALTAIR® 5X MULTI-GAS DETECTOR

The Altair® 5X is designed with XCell Sensor Technology for faster response and calibration times. XCell Sensors offer superior stability, accuracy and repeatability.

- Easy to use in all applications
- Bluetooth wireless connectivity
- A rugged polycarbonate housing provides unsurpassed durability
- MotionAlert sensor
- InstantAlert feature
- Altair Connect App available on Google Play
- Configurable to meet your needs

RAE MULTIRAE WIRELESS, PORTABLE MULTIGAS MONITOR

With the flexibility of up to six gas sensors and the convenience of wireless portability, this multi-gas monitor is versatile and customizable, while delivering real-time access to instrument readings and alarm status from any location. Choose from 25 sensor options including LEL, PID, NDIR, and exotics that can be easily changed in the field. With five built-in alarms, including man down, and wireless connectivity to your command center, MultiRAE delivers vital information for fast incident response.

- Optional integrated wireless
- Dust-tight and waterproof (IP65-rated)
- Onboard gas libraries include 190 VOCs and 55 combustible gases
- Continuous data logging-6 months for 5 sensors 24/7

RAE GAMMARAE II R

A gamma radiation detector and full-range dosimeter in a single instrument. Designed specifically to meet the needs of first responders.

- Two types of sensors for excellent response in high and low dose rate ranges
- Waterproof to IP-67 standards
- Certified for use in Class I, Division 1 hazardous environments
- Top-mounted, invertible display
- Two AA alkaline batteries last up to 600 hours

RADIATION DETECTION

KROMEK D3S ID

A wearable RIID that gives you the power to make the right decisions about nuclear threats in seconds. A powerful combination of two of Kromek's leading technologies: the non-³He compact thermal neutron detector and its world leading gamma detector, delivering the performance of a RIID in a small, but powerful device, the size of a PRD.

- One of the fastest and most accurate isotope ID devices on the market
- Discreet, wearable, lightweight
- Rapid, visible, audible and tactile alarm settings
- Identifies 17 extra isotopes, 4X faster
- Extensively tested and characterised in multiple DND and DARPA programs
- Quick, simple and intuitive to use, no need for specialist training or knowledge
- Built around your operational needs

The World's Sixth Sense®

FLIR IDENTIFINDER® R200

Spectroscopic Personal Radiation Detector (SPRD). Ideal for routine traffic stops or high visibility events and in mass transit or critical infrastructure entry control points.

- Wearable, weighs less than 0.9 lbs.
- Gamma only (R200-G) and gamma/neutron (R200-GN)
- Fully compliant with ANSI N42.32 and N42.48 standards, nuclide identification ($\leq 7.5\%$ resolution)
- IP67 and MIL-STD 810G rated enclosure, 1.5m drop-tested on all six sides
- Single-hand operation with 3-button control
- Common user interface with other FLIR radiation detectors
- No consumables or user maintenance

IDENTIFINDER® R300
ALSO AVAILABLE

FLIR IDENTIFINDER® R400

All-Purpose Radionuclide Identification Device (RID)

- Handheld radiation detection and identification
- Intuitive and lightweight (< 3.2 lbs.)
- 3-button interface simplifies operation in high stress situations
- Over 20,000 deployed globally

PPE

DUPONT™ TYCHEM® 2000 SFR

Chemical and secondary flame protection in a lightweight garment. Intended to be worn over primary flame resistant garments. Also provides an effective barrier against a range of inorganic acids and bases as well as industrial cleaning chemicals and particles.

- Respirator-fit hood lined with Pro-Shield® 6 SFR fabric
- Covered, braided elastic at hood
- Nylon zipper with large metal pull
- Chin flap with double-sided adhesive tape
- Storm flap covers zipper which can be sealed by the wearer with double-sided adhesive strip to prevent intrusion at zipper
- Covered, braided elastic openings at wrist and ankle for tighter fit
- Taped seams

DUPONT™ TYCHEM® 6000 TF611T

Made of a proprietary barrier film laminated to a Tyvek® substrate. The fabric provides at least 30 minutes of protection against over 180 challenge chemicals including chemical warfare agents and toxic industrial chemicals.

- Strong, durable and lightweight
- Hooded coverall with Elastomeric interface hood for tight fit around respirator
- Rear entry design keeps closure away from direct contact with frontal chemical exposure
- Double storm flap covers zipper which can be secured by the wearer with snaps and hook and loop closure to prevent intrusion at zipper
- Attached dissipative socks with boot flaps
- Attached inner gloves (to be used with appropriate outer gloves)
- Elastic wrist for an optimum fit
- Taped seams provide strong chemical resistance against heavy liquid splashes. A sewn seam is covered with a strip of compatible chemical resistant material through heat sealing

BLAUER RC3® ENSEMBLE

Designed to protect wearers against a broad range of CBRNe threats including liquid and vapor chemicals, radiological and biological particulates, and liquid chemical splash during physically demanding tactical entries, confined space rescue, and US&R missions.

- NFPA 1994 Class 3-R (2018 ed.) certification
- NFPA 1994 Class 4-R (2018 ed.) certification
- NFPA 1992 (2018 ed.) certification
- Breathable GORE CHEMPAK fabric
- Streamlined pattern provides a more tactical fit on the user and better equipment integration
- Durable fabric and seams prevent accidental contamination and provide user confidence
- Ten year shelf life
- Machine washable for multiple uses if not grossly contaminated

KAPPLER DURACHEM® 500

Certified NFPA 1994 protection for both CBRN and Hazmat.

- Includes dual certification to NFPA 1994 for both Class 1 and Class 2
- Provides tactical CBRN protection in non-encapsulating suit
- Rubber gasket fits securely around respirator (eliminates need for taping)
- Rear entry design enhances frontal splash protection

KAPPLER LANTEX® 100

Certified to NFPA 1999 for fentanyl response.

- NFPA 1999 certified Lantex® 100 meets IAB and CDC/NIOSH guidelines for fentanyl protection
- Fabric and seams pass ASTM F1671 blood and viral penetration test
- Breathable protective fabric provides enhanced comfort
- Unique rear entry garment design allows safer doffing, helps prevent cross-contamination
- Soft, flexible rubber gasket around face opening provides secure fit around respirator
- Finger loop features ensures sleeves extend over gloves

PIP NOMEX HOOD

This NFPA straight cut full face hood is made of 20% Nomex and 80% Lenzing FR, fire resistant 2 ply knit fabrics that are certified to NFPA 1971-2007 standard for structural fire fighting.

- 20" in total length with a back gusset that allows it to lay flat around the neck
- Tunneled elastic face opening - 1/2" elastic is encased in fabric to ensure snug and durable fit
- Flatlock seams add strength and extra comfort

LION ERS

The ERS (Extended Response Suit) protects against lower levels of vapor and liquid concentrations that may be encountered in the Warm Zone when deployed with the proper ensemble. This one piece, front entry suit is breathable for deployment over an extended period of time.

- Durable GORE® CHEMPAK® Selectively Permeable Fabric provides the wearer with protection against TIC's, TIM's, and CWA's below IDLH concentration levels while performing technical and tactical operations
- Certified to (Warm Zone Operations), NFPA 1994, Class 3 (Toxic Industrial Chemical and Warfare Agent Protection) and NFPA 1992 (Liquid Splash)
- Certified with variety of face pieces
- Increased mission time and performance due to the breathable selectively permeable membrane
- 24 hour / 3 wash wear life
- Sleek, one-piece, lightweight design with attached hood that easily compacts for storage
- Front-entry design for ease of donning/doffing
- GORE® G9492 inner glove
- Molded face seal that does not require tape and is certified for use with multiple CBRN respirators and masks
- Tapered legs with elasticated cuffs and attached booties for increased functionality and mobility
- 4 adjustable belt loops to securely wear a duty belt or a PAPR and allow for easy doffing during decontamination

LION MT94™

The MT94™ (Multi-Threat) CBRN ensemble offers first responders advanced protection when facing some of the world's worst chemical and biological threats.

- Limited Hot Zone protection - certified to NFPA 1994, Class 2 and NFPA 1992 for hot zone operations
- GORE® CHEMPAK® Ultra Barrier Fabric provides durable protection against TIC's and CWA's above IDLH concentration levels while also providing improved mobility during tactical and technical operations
- Streamlined design combines durability, mobility and comfort
- Usable for multiple wears and washings, if not exposed or contaminated
- Rugged construction allows you to perform in the most challenging of circumstances
- Certified for use with GORE® G9492™ glove system using GORE® CHEMPAK® Ultra Barrier Fabric

APPLICATIONS

- Incident command
- Privacy/scene/evidence protection
- Long-term operations
- Rehab
- Dive rescue

BENEFITS

- 1 person automatic deployment
- Compact storage
- All-weather use
- Pre-installed LED lighting
- Customizable

PELTOR®

3M™ PELTOR™ COMTAC™ HEADSETS

Designed to provide warfighters the options needed for successful field hearing protection and combat communications.

- 2-way tactical headset
- Level-dependent surround sound for “talk through”
- Ambidextrous noise-canceling boom mic
- Adjustable sizing

3M™ PELTOR™ TACTICAL 6-S HEADSET

Designed to perceive and localize weak sounds while offering hearing protection in high-noise environments.

- NRR: 19dB
- Small, compact and foldable
- Slim earcup profile
- External earcup microphones help provide situational awareness

ATLANTIC SIGNAL GLADIATOR H TACTICAL HEADSET

Allows an operator to engage and disengage hearing pro at-will while having no impact whatsoever on his ability to RX and TX.

- Earplugs provide up to 23 NRR
- Allows the operator to receive radio communications through his/her facial bones, leaving both ears free to maintain 360° of situational and directional awareness
- Audio transducers are positioned in front of the ears
- Communication systems are customizable

ATLANTIC SIGNAL COMBAT PUSH TO TALK

- Front mounted PTT switch as a secondary actuation switch
- Side mounted switch is quiet and shrouded
- Water resistant

**SAFWARE IS A PROUD
DISTRIBUTOR OF THESE
LEADING UNIFORM
MANUFACTURERS!**

TIMBERLAND PRO® VALOR™ DUTY BOOT

Soft-toe waterproof boots feature outsoles that grip any terrain and lightweight insoles for athletic performance.

- Uppers are black smooth leather and 1200-denier ballistic nylon
- Waterproof membrane
- Mesh lining with antimicrobial treatment for odor control and comfortable feet
- Scotchgard™ protector by 3M for stain resistance
- Bloodborne pathogen-resistant membrane
- Dynamic anti-fatigue technology absorbs shock and returns energy at key zones of the foot for all-day comfort
- Rounded driving moc heel
- Wall-climb toe grip
- Non-marking Timberland PRO® rubber lug outsole is slip-, oil-, and abrasion-resistant

PROPPER® SERIES 100® 8" WATERPROOF SIDE ZIP BOOT

- Polishable full grain leather (black only) with 1000D nylon upper
- Durable, coated, speed lace hardware with 550 paracord lacing
- Fast-rope compatible arch design resists wear from ladders and fast-roping
- Ortholite® sock liner for comfort
- Washable open cell foam inserts contour to your foot for weight distribution and arch support
- Oil- and slip- resistant upper outsole for excellent traction and impact absorption
- Open cell air mesh foam provides full foot air circulation for maximum comfort
- Anti-microbial breathable lining prevents odor and extends the life of the boot
- Triple stitching for durability NATO speed lacing system
- YKK side zipper with zipper guard

5.11 TACTICAL® A.T.A.C 8" SHIELD CSA/ASTM BOOT

Offers unbeatable puncture, moisture and toe protection for superior safety in the harshest environments. The ATAC Shield Boot keeps you mobile, secure and comfortable at all times.

- Waterproof/breathable BPR membrane
- Side zip functionality
- 5.11 Shock Mitigation System®
- Antibacterial and moisture-wicking lining
- Cushioned insole
- Oil and slip resistant, no-squeak outsole
- Semi-rigid heel and toe reinforcement
- Full grain leather and rugged nylon construction

DANNER ACADIA BOOTS

Made in the USA, the Acadia® features Danner's famous stitchdown construction, providing a more stable platform underfoot and superior durability.

- 8" black
- Waterproof breathable GORE-TEX® lining and a combination upper of 1000 Denier nylon and full-grain leather
- Vibram® Kletterlift outsole provides superior shock absorption and great traction on both wet and dry surfaces

HAIX GSG9-S

Developed for and with SRT Teams.

- 8" black
- Waterproof leather
- Footwear liner which will never pull out or wrinkle up over time
- Lightweight foam injected into the sole to provide exceptional shock absorption and superior heat/cold insulation
- Two-zone lacing system

SAFEWARE OFFERS AN EXTENSIVE OFFERING OF DUTY GEAR

**GOULD
&GOODRICH**
